Material/Finish

Batten: pre-coated roll form steel, white
 End caps/lamp holders: injection moulded polycarbonate, white
 FixExpress mounting plates: injection moulded polycarbonate, white
 Sensor and emergency modules: injection moulded polycarbonate
 ClipLine diffusers (T16 only): opal acrylic

Installation/Mounting

PopPack comes with FixExpress mounting plates to ensure rapid installation directly onto a surface or BESA box (for trunking via 20mm connectors an accessory kit is required). All versions have 600mm fixing centres except for 14/24W versions which are at 445mm centres. Supplied with a screw terminal block that accepts 2x2.5mm² cable and is suitable for loop in/loop out wiring. All internal wiring uses halogen free cable. Sensor and emergency modules push fit on the ends, after the end caps have been removed, and are connected with 'one-way' plugs and sockets (not suitable for 14/24W versions)
