

Arena Symphony

Innovative LED luminaire with sound absorbing features to minimise sound reverberation in classrooms

- Fully compliant with BB93 (measured for an empty classroom) for optimum classroom performance
- Achieves the acoustic and lighting standards with only 6 fittings in 56m² classrooms
- Wide range of control options, including simple ON/OFF, dimming and sensor
- Designed for flexibility offering a choice of infills to adapt the length of the system to match all classroom layouts

96645149

Material/Finish

Raft: aluminium

Luminaire frame: aluminium, powder coated white as standard (RAL9010)

Acoustic material: rocksilk mineral wool fibre

Optic: acrylic

Installation/Mounting

Suitable for suspension mounting with 4 suspension wires (supplied). Suspension wires are adjustable in height due to the support on the luminaire with millimetre movements, in 2 directions. This product can be used in a system with added infill panels to fulfil the acoustic requirement. Through wiring and quick connector are also provided to aid a fast installation. Sensor version also available with Master and Slave control.
