LINEAR LUMINAIRES WITH A CONTEMPORARY EDGE

Evenline Pro from Thorn Lighting brings modern design and high-performance lighting together in a flexible, modular system that adapts to any architectural space. With its clean lines, seamless illumination, and configurable options, Evenline Pro delivers a bold, contemporary aesthetic that enhances both form and function.

PRECISION LIGHTING FOR MODERN SPACES

Elevate your lighting experience with Evenline Pro linear luminaires - the smart choice for offices, educational institutions, retail environments, hotels and hospitality settings. Delivering high lumen-per-metre output and superior glare control, Evenline Pro ensures visual comfort. Its flexible mounting options are perfect for plasterboard, suspended and exposed ceilings, while the modular design allows for straightforward configuration, installation and maintenance. Backed by Thorn's legacy of quality and innovation, Evenline Pro comes with the added assurance of a 5-year warranty.

DESIGNED FOR VISUAL IMPACT

Create striking, continuous lines of light with a homogeneous appearance that elevates the visual quality of any environment. Evenline Pro offers lumen packages of up to 3500 lm per metre, delivering bright, consistent illumination. The office-optimised LRO optic ensures visual comfort with a Unified Glare Rating (UGR) <19, making it ideal for workspaces that demand both style and compliance.

MOUNTING OPTIONS FOR EVERY CEILING TYPE

Evenline Pro is engineered for seamless integration across a wide range of ceiling types:

PLASTERBOARD CEILINGS

- Framed channels for straightforward installation by qualified electricians
- Frameless channels for a minimalist, flush finish

MODULAR CEILINGS (T-BAR)

- Wide-frame channels compatible with both visible and concealed T-bar systems
- Supports single or continuous-row installations

SUSPENDED AND SURFACE-MOUNTED

- Frameless channels with dedicated accessories for clean, modern installations
- Screwless, light-leakproof design ensures a flawless finish

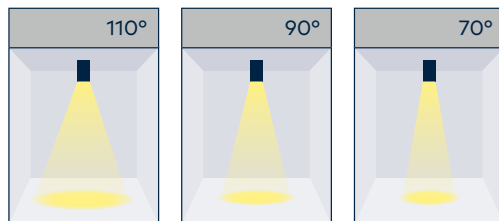

Luminance reducing optic (LRO)

MODULAR AND CONFIGURABLE

The Evenline Pro system includes a wide range of **lengths, shapes, and optics**, all easily configured using Thorn's intuitive online configurator. Whether you're designing straight runs or complex layouts, corner elements allow for **L-shaped, U-shaped, or square formations**, giving you complete creative freedom.

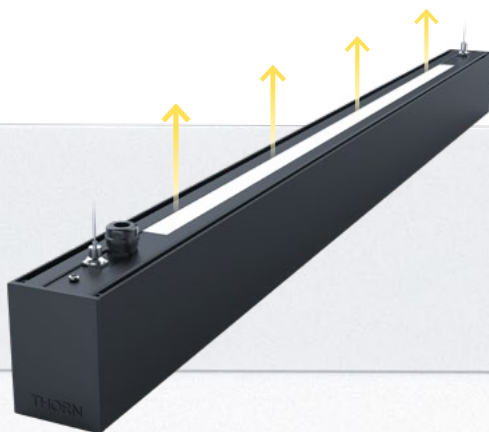

Shapes: Linear, L, U and Square

Evenline Pro linear LED luminaires are available with a choice of three optics.

- **Opal** with a 110° beam angle
- **Microprismatic (MPT)** with a 90° beam angle
- **Luminance reducing optic (LRO)** with a 70° beam angle

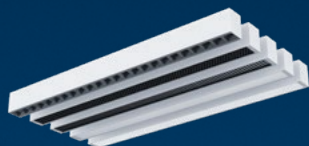

The suspended Evenline Pro luminaire is also available with a direct/indirect optic. This provides an additional soft pool of upward light on the ceiling.

ENDLESS POSSIBILITIES

Evenline Pro is compatible with a wide range of accessories, significantly enhancing installation flexibility. It is also available with an IP54-rated casing, offering reliable protection in environments where occasional exposure to dust and water splashes is expected.

EFFORTLESS INSTALLATION

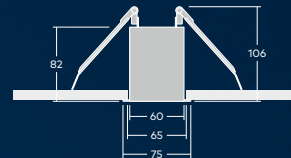

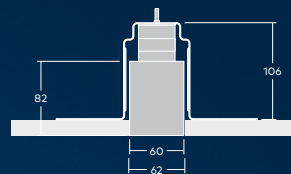

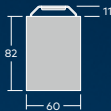

Designed with installers in mind, Evenline Pro simplifies the installation process:

1. **Mount the channels** using accessories tailored to the ceiling type.
2. **Click in the battens and optics** - no complex wiring looms required.
3. **Hassle-free, reliable setup** that minimises installation time and reduces the risk of errors.
