

## Zeta Pro G2

### A future proof and scalable LED streetlight for functional road lighting application

- Modular and scalable design to cover full scale of applications
- Tool-less access to the gear
- Ease for maintenance thanks for self-cleaning design on body

Photographs, line drawings and photometric data are representative only. For specific product detail please select an individual product.

#### Material/Finish

Body: die-cast aluminium

Diffuser: polycarbonate

#### Installation/Mounting

Pole mounted:

Prefabricate dia. 60mm lamp pole with the required pole height together with 3-core electrical Mains cable (by others). Make sure to connect the Earth wire to the lamp pole and the lamp pole must be contacted with the Earth completely.

Open the streetlight cover to connect the Mains through the waterproof connector. Close the cover and put the streetlight on top of the lamp pole and fix the screw tightly.
