

## UrbaSens Play

### A local wireless control system for sports application such as training field and multi-use games areas

- Lighting controls: Capable of using several scenes to create the required lighting level and conditions for any sports event. Dimming of the whole field or create sub-field lighting conditions.
- Mobile control: Directly accessible and controlled via a Bluetooth enabled mobile phone using 4Remote BT APP. Using TRIDONIC BasicDIM Wireless OTD technology, get the best of this eco-system.
- Luminaire compatibility: Directly mountable on any Zhaga-D4i luminaire or via a dedicated Zhaga Retrofit Box for luminaires such as THORN ALTIS G5.
- Wireless network: Up to 250 nodes and up to 100m of wireless range. No daylight or motion control.
- Commissioning: No dedicated tool or mobile app required - commissioning takes a minimum amount of time.
- Zhaga Retrofit Box: available with two mounting options - Wall or Mast - with all required accessories. Up to 8 physical DALI drivers and up to 4 logical groups of DALI drivers.

Photographs, line drawings and photometric data are representative only. For specific product detail please select an individual product.
